10. 点击开始拍摄后，会显示照片预览，如无问题，可点击确定进行照片制作 After clicking start shooting, the photo preview will be displayed. If there is no problem, click 确定 to make the photo:

11. 制作完成后，系统会自动进行检测，检测通过的自动存入草稿箱，检测不通过的，会进行相应提示。同时返回重拍按钮自动进入一定时间的冷静期。After the photo is completed, the system will automatically detect. Those that pass the detection will be automatically stored in the draft box. Those that fail the detection will be alerted. At the same time, the system returns to the remake button automatically and enters a cooling off period for a certain time.

12. 如遇多次<u>活体检测</u>失败的，则会对账户进行锁定，需学校老师后台解锁后才可以重新拍摄。提示文字为："系统检测到您的照片多次未通过活体检测，请联系学校图采工作部门进行账号解锁。系统检测到草稿箱有照片，可以选择进行上传。"If the system finds that instead of a person, a picture or a photo is shot for many times, the account will be locked, and you can shoot again only after the school teacher unlocks in the background. The prompt text is: "the system has detected that your photos have failed to pass the living body detection for many times. Please contact the school's photo collection department to unlock the account. The system has detected that there are photos in the draft box, so you can choose to upload them."

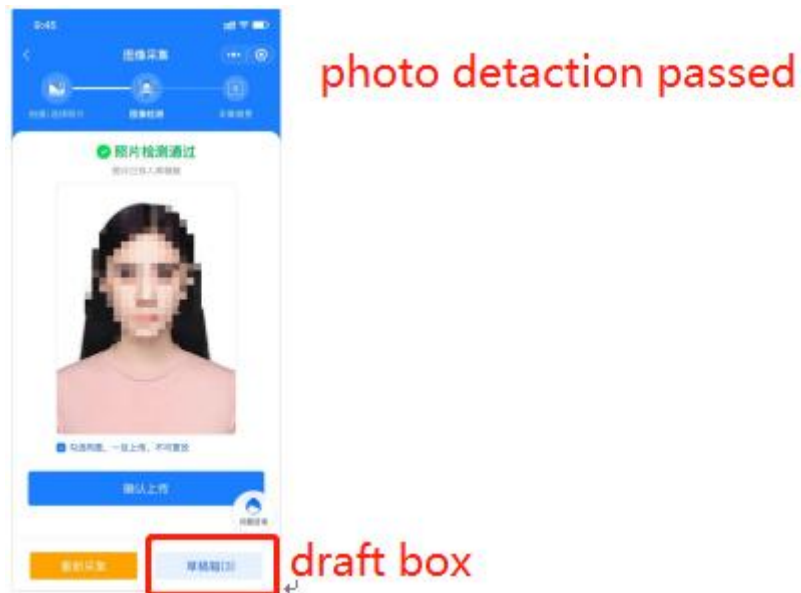

13. 如遇多次<u>其他指标</u>检测失败的，则会对账户进行锁定，在一定冷静期后可以重新拍摄。提示文字为："请仔细阅读拍摄要求，可于 XX 年 XX 月 XX 日 XX：XX：XX 后重新拍摄。系统检测到草稿箱有照片，可以选择进行上传。"If other indicators fail to be tested for many times, the account will be locked and can be photographed again after a certain cooling off period. The prompt text is: "please read the shooting requirements carefully, and you can shoot again after XX: XX: XX, XX.（yymmddtime）The system detects that there are photos in the draft box, and you can choose to upload them."

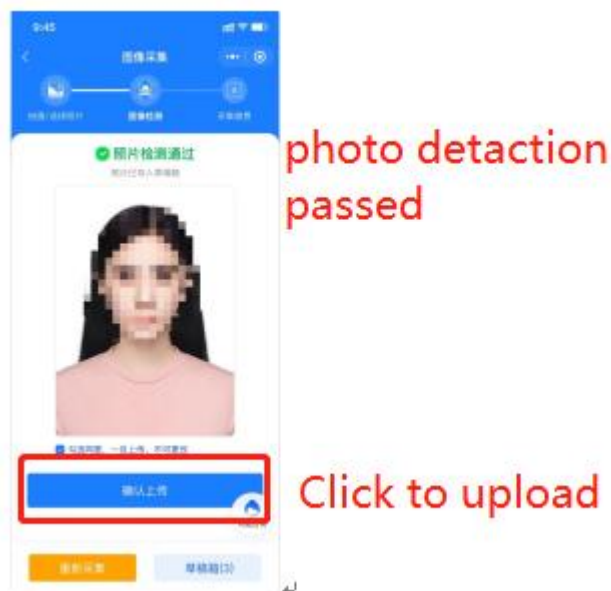

14. 草稿箱照片在存入草稿箱后的一定时间（24 小时）后可删。草稿箱已满时，无法进行拍摄操作。提示文字为："草稿箱已满，请前往草稿箱删除或使用草稿箱照片。" Photos in the draft box can be deleted after a certain time (24 hours) after being stored in the draft box. When the draft box is full, you cannot shoot. The prompt text is: "the draft box is full, please go to the draft box to delete or use the draft box photos."
